DETAILED ACTION

Response to Amendment

The amendment filed on August 15, 2006, has been entered and acknowledged by the Examiner.

Claims 1-3 are pending in the instant application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Tokito et al. (US 6406801).

Regarding claims 1-3, Tokito discloses an electroluminescent device comprising a substrate (Fig. 11, 'glass substrate') and, adjacent to the substrate, a laminated bode composed of a first electrode (Fig. 11, 'MgAg mirror electrode'), an electroluminescent layer directly on the first electrode (Fig. 11, 'organic layer'; Column 11, lines 51-59), a second electrode (Fig. 11, 'ITO electrode'), and $2n+1$ transparent layers, where $n = 0, 1, 2, 3, \dots a$, which transparent dielectric layers alternately have a high refractive index of $n > 1.7$ and are made TiO_2 (Fig. 11, 'multilayered film mirror'—see TiO_2 layers) and a low refractive index of $n \leq 1.7$ and are made of SiO_2 (Fig. 11, 'multilayered film mirror'—

see SiO₂ layers), and the transparent dielectric layer bordering on the second electrode has a high refractive index (Fig. 11, see TiO₂ layer directly adjacent to 'ITO electrode').

Response to Arguments

Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
